

OUR TEAM LOVES THIS STUFF

We eat, breath, and live technology management
and business improvement. Nerdy, right?

HYBRID CLOUD STRATEGY

Managed Express Route: Express Route connects your data directly to our data centers and Azure, making corporate compliance concerns not a concern.

Cloud Hosted Virtual Servers: Virtual machines hosted on our servers can save you money over Azure.

Azure Public Cloud for Apps: We provide full support for Apps that may need to accommodate explosive growth or worldwide distributed access by utilizing Azure Public Cloud.

Disaster Recovery: Minimize downtime with RevNet's Disaster Recovery Services. Our software, hosted virtual servers, and equipment colocation will bring you back online in minutes!

Three Legged Stool Security: Your data is safeguarded in house, in our datacenter, and through Azure.

Keep Your IT Department: RevNet's services are designed to complement your existing IT department.

HYBRID CLOUD STRATEGY POWERED BY REVNET
